Life changing book with practical methods to improve your learning skills

By Herby

Knowledge is power! - But only if we are able to use our knowledge. Otherwise it's worthless. Usually, at school, most children "learn" a lot of things by heart and don't learn how to learn. This is the purpose of this book: learn how to learn more, in less time.

"The entire quality of life will be determined by your ability to learn, to think, to make your mind perform."

You will discover in this book that the capacity to process new information is not depending on your IQ (or any other hereditary factor, gender or age). If you learn how to learn, your entire life can change. Knowledge and power are not restricted to a few elites or particular "high IQ" specimen. You too can access to any knowledge you need, in a record time. All you need is to learn how to learn fast, and more important, how to acquire profitable knowledge, rather than cram a vast mass of unorganized facts.

Think about it: how important is your level of education in your career? Many people believe that getting higher education and degrees is a matter of intelligence. Read this book and get rid of this myth!

The book is divided into five major parts:

- 1-Evaluate your actual abilities and define your strategy
- 2-Reading (how to acquire more information faster)
- 3-Writing (how to express yourself easier)
- 4-Remembering (how to retain more)
- 5-Perform (how to succeed with knowledge tests)

"Accelerated Learning" by James Horton is highly recommended to everyone who wants to improve their learning faculties. From my experience as a personal coach I know that many people don't read a lot (of valuable content) because they read slowly and with difficulties. Many people refuse to acquire new skills because it takes too much effort. Most want everything fast and easy. When learning becomes laborious, they give up.

Here is a solution. However, learning how to learn needs an effort. There is no magic powder in this book. No audio to listen to while you are asleep. The process will take hard work. Nobody can do this in your place. But in the end, you will be able to control your destiny.

Take the first step and get started.
