Warning: This book is not for the faint-hearted and contains a cliffhanger ending and scenes of an upsetting nature. \*\*\*Warning Explicit Content 18+\*\*\* "Mackenzie Moore whirled into my life when I was ten years old. The first time she looked at me from the doorway of my bedroom with those green eyes, innocent and beautiful, and hair the color of golden corn, she blew my world to shit. I felt a whole bunch of strange pins and needles ripple through my belly that day. At ten years old, it was her sweet smile and skills with her daddy's football that had me sunk. At fifteen, it was her skills with that sweet mouth which she used to steal my heart. At eighteen, I'm in so fucking deep i can't turn back. I know she's in self destruct mode, and the problem is, I'm in so fucking deep I'm probably going to destruct with her. If I knew then what I know now, I'd have run. If I had know just how dangerous my stepsister was to me... But it's too late for running: it's too fucking late for even thinking about stepping sideways. My stepsister is dangerous and wrong for me in every way possible. Too bad I'm hooked...

Mackenzie and Cade

By Jennifer R. Shiels

Mackenzie and Cade met when they were 10 years old when she and her parents move next door. They become best friends and then they start becoming more. When they are 15 years old, Mackenzie is kidnapped and put into slavery in Mexico. She's raped and tortured for 3 years when she's finally free at the age of 18 years old. She experienced and saw so many horrible things. She's definitely not the same girl.

Mackenzie always loved Cade and he is what helped her make it out of that horrible situation. She thought of him and remembered him even at times she wasn't sure what her name was. She's definitely not anywhere near the girl she was once upon her time. She's different and alot of the people in town treat her terribly for things she had no control over. Even her stepmother Cade's mother treats her poorly. Emily and a couple of others were friends with Mackenzie growing up but they treat her horribly when she comes back. She's jealous and vindictive and will do and say anything to keep Cade.

Cade has felt immense guilt and he's felt that part of him died when she was taken. He loved her and felt like

he was supposed to protect her. He's tried to go on and finally he's started dating Emily who always wanted him. He still loves and wants to be with Mackenzie but he feels he needs to at least be with Emily some. But then some horrible things happen to Emily and he's trapped.

Worth reading.

Loved Kenzie and Cade

By Charissa Garza

I read this book when it was first released and I almost loved it more than her fallen series. Almost. This book kept me on the edge of my seat and always had me rooting for kenzie and Cade. There are some parts of this book that had me wanting to throw my kindle across the room, but the more I read the more I fell in love with the story. So if you want something great to read do yourself a favor and blur some lines cause the tears you shed reading this book will do just that...

5 Breathtaking Stars

By Alycia Marie

I have yet to read a word by Chloe Walsh that I have not fallen madly in love with. With each book her writing gets better and better. Surpassing her last published book when I didn't think it was possible. I really didn't think she could beat Treacherous. Boy was I wrong!

Blurred Lines is unlike ANYTHING I have ever read. Ever. It's hard to even form words to accurately explain my feelings. I swooned hard, loved deeply, even laughed at times. Then I shattered into a billion pieces, my soul was shredded, and my heart wept and broke and splintered. I became enraged and murderous, livid beyond reason. I gasped for air, questioned what the heck I was reading, then fell in love with each and every word as my heart was ripped from my chest. The writing and these words are so breathtakingly beautiful, they live inside you. You live and breathe them, consume and devour them. You see, this book is everything and you will FEEL everything. Chloe's writing is really indescribable when it comes to Blurred Lines. It is complicated and earth shattering and beautiful and just is. It just is and this book just needs to be read.

Blurred Lines is by far Chloe's best work to date and I cannot wait for more from her. Especially a sequel to the story of Cade and Mackenzie. I need more! This is a must read and not only a best read of 2015, but a best EVER read.
