BOSPHORUS THE ULTIMATE GUIDE - ISTANBUL BY PAT YALE SAFFET EMRE TONGUC PDF

1057 illustrations. This book is among the most accurate and elaborative work about the Bosphorus. Alongside the exclusive, unseen photos from the most famous waterside mansions, it provides up-to-date information about the Bosphorus from one side to another. Asian and European sides being the two main chapters of the book, it takes you on a step by step Bosphorus tour that covers not only the touristic spots, but also the hidden treasures of the city only known by the locals. An excellent work devoted to the Bosphorus with the unforgettable stories of the historical buildings, the photos of the monuments bearing the glamour of the Bosphorus and the authentic, magical sight-seeing routes." The primary reason why Istanbul has been such an important city for thousands of years is its incomparable geographical location straddling the shores of Europe and Asia. Meandering through the middle is the Bosphorus, "which makes its stately way past nostalgic neighborhoods, ancient houses of worship, historic monuments, and magnificent yalis. Like the Istanbul it is a part of, the Bosphorus is perpetually changing. From the hotels to the restaurants, from the houses of worship to the palaces, and from the museums to the yaks, the area's make-up has gradually altered over the centuries. For this reason, we saw a need for a new and updated guidebook to highlight the changes and incorporate the latest information and photographs. While preparing this book, we had a tough time dealing with the yal?s. Most older books about the Bosphorus lack photographs of their interiors and we had to wait six months just to take pictures of one of them. Thanks to the help of friends and acquaintances we finally managed to come up with pictures of more than twenty yal?s or were given the opportunity to photograph them especially for this book."

Best Guide for Exploring the Bosphorus

By Don Greenberg

This book is a great resource for anyone going to Istanbul. A must for anyone living in this spectacular city.

Pat Yale and Safret Emre Tonguc give you what you need if you have only a few hours, and enough for a few weeks of exploring the Bosphorus.

Beautiful photographs, and they managed to get into of few of the famous yali (mansions on the Bosphorus) that are closed to the public.

Great capsule descriptions of the sites.

I only gave it 4 stars, but its a first edition and I know they'll improve it.

Some shortcomings with this edition:

- * A lot of words are seemingly randomly put in bold, you expect to see them in a map or in an index, but they are not explained anywhere else in the text.
- * The guide sometimes assumes you are familiar with Istanbul neighborhood names, and where they are in relation to the Bosphorus. A real challenge for visitors.
- * Sometimes not clear whether or not the site described is open to the public, or private
- * **IMPORTANT** -- include a pull-out map with street names and the locations of at least the key sites. This would be a fair amount of work, but it would make the book twice as useful.
- * Including the segments of the Bosphorus that make for good walking routes.
- * The best way to cycle the Bosphorus (here's the spoiler -- start in Karakoy and go north to Sariyer. Take the ferry to Anadolu Kavagi, and cycle down to Uskudar (or Kadikody) and take the ferry back.
- * A more complete overview of the ferry system would be helpful -- they cover the IDO company adequately, but there are a lot more options using the other companies that criss-cross the Bosphorus.
