You've got a friend.

By Bernie

When your down and troubled

And you need a helping hand

And nothing, whoa nothing is going right.

Close your eyes and think of me

And soon I will be there

-- Carole King

This is a great book with a surprisingly wonderful story. However by the time you figure out where the author Wilmar H. Shirras is leading us the book ends and possible the real story just begins.

A psychiatrist stumbles on a secret that children born after a nuclear mishap have expanded intellects.

This of course can be a blessing or a curse depending on how it is handled. There is a much bigger theme of which this is just the core.

As with other readers this book needs to be revisited periodically.

If you like this story you should also like "Starship on Saddle Mountain" It is a different kind of story but also has the general intent of this story.
