The Stylistique comparée du français et de l'anglais has become a standard text in the French-speaking world for the study of comparative stylistics and the training of translators. This updated, first English edition makes Vinay & Darbelnet's classic methodology of translation available to a wider readership. The translation-oriented contrastive grammatical and stylistic analyses of the two languages are extensively exemplified by expressions, phrases and texts. Combining description with methodological guidelines for translation, this volume serves both as a course book and through its detailed index and glossary as a reference manual for specific translation problems.

I have dipped into this in French, but it is - naturally - easier and perhaps clearer in English. Excellent translation - a lesson in itself.
