Disney at the Piano solo songbook from Amazon.com

By DEB

I really like this book so far. I've been taking piano lessons about five years. I've tried several of the songs, a couple I can play pretty well but for the most part the music will give me a challenge. At first glance I thought I would need a more advanced book but I've found this book to be more challenging than I first thought. After five years of lessons I wanted something with some challenge and this was it. Not so hard that it's frustrating but not for a beginner. If you are looking for Disney songs that are more advanced than the easy piano, this is the book for you.

If you're looking for piano solos buy this book!

Absolutely beautiful arrangements of disney songs! This is not the typical piano-voice-guitar tab book, so if you're looking for something with lyrics and something that is easy don't buy it. If you're looking for a book of elaborate (but not impossible) piano solos, like I was, of your favorite disney songs, this is the book you want. I picked up the piano again after a very long break. It took awhile to learn the songs, but with hard work they are worth the effort!
