I received this guide yesterday, and first of all I was quite impressed the pages feel like quality paper and theres just so much information in this thing! However there a few errors one of which was a small typo which is not a big bother to me at all, and in the Bestiary there is a noticable spot of ink that blocks a few words. All in all though this is still a great guide to have!

Five Stars - Amazing

By Brianna Yankasky

This guide is huge! I love it! Awesome price too, 20\$ cheaper than GameStop so I couldn't resist. Very excited to finally play this. Comes with a bookmark, e-guide download code and also a huge map poster!

Great book - old content somewhat

By kdatrio

The book is awesome. Well made and the pages and ink are great. The reason for the missing star is that I had the original game and the original Prima Guide. This book is the exact same one with the DLC content added in. The text in the book even mentions content from updates and from DLC as optional even though it comes with the new special edition. I expected a re-printing of the original to some extent, I just feel like Prima dropped the ball on the editing this out to "hide" it from us. I have both my books side by side and the content is the same. I know that the game is also the same, I just wish they had removed the references to this fact.
