## About the Author

Books and writing have always been an enormous part of Anita's life. She survived school by hiding out in the library, with several thousand fictional characters for company. At university, she overcame the boredom of studying accountancy by squeezing in Egyptology papers and learning to read hieroglyphics. Today, Anita writes twisted historical novels with heart. She lives in rural New Zealand surrounded by a weird and wonderful menagerie consisting of horses, cats, a mad boxer and chickens who think they are mini Velociraptors.

An ancient Egyptian artifact is driving Queen Victoria insane, and that's not top of Cara Devon's growing list of problems.

Viscount Nathaniel Lyons is a man of numerous secrets, but there is one in particular that threatens his fledgling relationship with Cara. Stunned by Nate's revelation, and before she can absorb the ramifications of his actions, he is arrested, charged with treason and imprisoned in the grim Tower of London. He stole something the mad queen wants, and only has days to deliver, before his date with the executioner.

Although sorely tempted, Cara can't let him die on Tower Green, not when their connection means she would share his fate.

Only together can Cara and Nate figure out how to wrestle Hatshepsut's Collar from around the queen's neck, before she plunges Britain into a world war. The search for answers sends Cara to the opulent Winter Palace of St Petersburg and the frozen depths of Siberia, with every step shadowed by an enemy with his own dark plans.

Such a great series...

By Lee

The relationship between Cara and Nate just gets better in this second book. I really love these two, and though Nate's secret caused a rift, it was a great read learning about the when and why of it and his feelings for Cara. I laughed more than once at the constant, not-so-subtle, interest Nate's friend Hawke had for Cara, though he changed his tune in the last part of the book--for good reason! The plot, characters--big and small--the steampunk twist on Queen Victoria's England, the adventures...well, I just couldn't stop reading until I'd finished. Can't wait for #3.

What happened?

By Gibraltar

The first book in the series was riveting, imaginative, and a gem of mystery, steam punk, and likeable heroine and magnetic hero. This one.....it reads more like a dashing romance, full of bodice ripping, self flagellating doubt and set me free if you love me boring drivel. Also, the storyline premise, rescuing the queen, is so far from the characters' prior motivations it strains credulity. Yes, fast paced but lacking in real imagination other than far flung devices like dragons,without really giving them any soul. This could be a YA book in its simplicity and immature identity questioning, except for the sex scenes. Disappointing.

These just keep getting better!

By Neith

A.W. Exley is officially one of my reread authors. You know, when you reread all the previous books in a series before starting the latest one? I love Cara, Nate and that rascal Loki. This time they journey to St. Petersburg, Russia in search of answers in Loki's airship. The action is non-stop and we learn more about the profound connection Cara and Nate have due to the artifact, Nefertiti's Heart.

For the first time we get to see what is going on from Loki's point of view and hopefully there will be more in future books. I can hardly wait to see how A.W. Exley plans on tormenting him! I'm sure whatever he gets, he deserves. What a rascal.
