Best Casebook On This Subject Out There

By A Peruvian Philosopher in France

Simply put this is the best casebook on Military Justice in existence. That may not seem like much, since there aren't that many casebooks written on Military Justice, but if you are entering the field, (if you've been selected as a JAG, you will practice some Military Justice) then this book is indispensable. It walks you through the entire process - some reference to your Criminal Procedure book may be necessary, but every important difference between federal or state criminal regimes and the military process are outlined and covered thoroughly.

Finally, the thing that matters most to me, the text is an easy read and the cases are exciting. The authors, Schenk and Maggs know the material thoroughly, both having military backgrounds, and write in a simple

and logical manner. I've had both of them as professors, and if you like professors who can organize things clearly, and get key points across without too much confusion, but still acknowledge absurd hypotheticals if you find them interesting, then you'll like this book.

I intend to use this book as often as I can as a reference as a JAG officer, and would recommend it to others for the same use.
