I bought this to have an easy access to tables

By Megan Lee

Disappointing with Tables. I compared them with original books, and found that a whole class of drug is missing and another class of drugs under wrong place. e.g. Table 10-2 HTN. Diuretics. Triamterene is not under K⁺ sparing diuretics. And no Aldosterone antagonist drugs. I bought this to have an easy access to tables, but I have to spent time comparing them with ones in big book.
