The best-selling Sony franchise finally becomes an action-packed comic!

With Dr. Nefarious defeated and the universe safe, galactic heroes Ratchet and Clank return to the Solana galaxy for some well-earned rest and relaxation. But when entire planets begin disappearing from the universe without a trace, Galactic President Qwark calls them back into action to solve the mystery. As the rest of the universe erupts in panic, the duo must embark on an epic adventure that will pit them against their most capable adversary to date: a Markazian planet thief named Artemis Zogg!

Beautifully captures the irrepressible spirit of its dashing heroes

By Midwest Book Review

The heroes of Sony's popular and beloved action-platforming-armed combat video games Ratchet & Clank now debut in their very own, full-color comic series, published by Wildstorm (also known for their comics set in the World of Warcraft massively multiplayer online RPG universe). Ratchet is, of course, a humble furry Lombax with a spark of technical genius who has saved the galaxy from destruction so many times he desperately needs some peace and quiet. Yet he and his law-abiding droid friend Clank are inevitably pressed into action in issue #1, when a nefarious force that has been making entire planets disappear targets the remote world they've settled on! In issue #2, Ratchet and Clank are locked within an inescapable(?) prison complex, and the cellmate who seems to have taken the most interest in them is a fierce warrior they've clashed with in the past! Who is the mad, brilliant mind seeking to assemble a brand-new galaxy from pieces of Ratchet's galaxy? And what role did the questionably venal and incompetent Captain (now Galactic President) Quark have in starting all this madness? The Ratchet & Clank comics beautifully capture the irrepressible spirit of its dashing heroes, and the ever-so-slightly cartoony feel of the video game's wild and crazy far-flung future universe. Highly recommended, especially for fans of the video games, but also for anyone who loves sci-fi adventure comics that feature dramatic action, but don't necessarily take themselves too seriously.

Filler (in a good way)

By Amazon Customer

I always wondered what happened between Crack in Time and Nexus and this fills in that awkward gap that is supplemented by All 4 One, etc.

Nice Little Something for the Fans

By Evelyn A. Culver

This is a nice addition to the series for any Ratchet and Clank fanatics, such as myself. I would recommend to anyone interested enough to give these comics a shot. The art for Ratchet can look a little strange at times, but other than that, the artwork in this comic is fantastic!
