It needs more.

By Bashar R. Behnam

This book can be considered as a comprehensive literature review. It needs more examples that can help researchers to find their way. A better enhanced third edition is needed. 0 of 0 people found the following review helpful.

Good book for graduate or undergraduate students

By Wei Jen Wang Lin

I recommend this book for graduate or undergraduate students of civil engineering. It contains theory and techniques for making structural models. See all 2 customer reviews...
