Great introduction to Business Law

By Margaret Wood

I was impressed with the style and delivery of the information. Very comprehensive and easy to locate information. Great Intro to Business Law

1 of 1 people found the following review helpful.

Well written book

By GM

As a student, it is always nice when a textbook is well written. This book was written in a clear manner with the content organized logically. I actually enjoyed reading this textbook because it was so well written that I could quickly get a great grasp of the content. Even though the topic (business law) is rather nuanced, I felt the textbook did a great job covering the details and finer points of the law/legal system. Plus my professor (who is the head of her department) raved about how this textbook is one of the best she's ever used so the teaching professionals seem to agree with my analysis too!

Great, but not Excellent... 4 and 1/2 stars

By M. E. Ferguson

PRO: Although I cannot say I have read any textbooks of this nature (business law). I did manage to read most of the book (chapters 1-22) for my MBA class. The information is, like others mentioned, presented well in the book without talking above your head. The examples are clear cut and most definitions are equally transparent. Other textbooks of mine are non-traditional as they don't define terms/concepts like a dictionary, but rather provide elaborate examples as to their underlying meaning. Some chapters are rather dry reading while others were more stimulating for my intellectual palette. Try to struggle through these ebbs and flows. Regardless, you need to read the adjoining chapter in order to do the questions at the end.

CON: Since I read the text over a large number of chapters, I did run into what became a familiar speed bump on regular occasion. One of the authors seemed to have been fixated on using the conjunctive adverb "however" extensively. There are other words that can state opposing ideas besides "however." I'm not even sure if the two separate commas were the correct punctuation in all cases. Use something else or find a thesaurus.

I must say I never had to read so much in graduate school; HOWEVER, I'm glad I read this book. Enjoy!
