A good book for ultra-Orthodox Jews

By Israel Drazin

This is a beautiful-looking commentary on the biblical book Esther that is designed, as all ArtScroll books, biblical and non-biblical, to teach ultra-Orthodox Judaism. There is no attempt by ArtScroll in its biblical commentaries to offer readers the plain meaning of the Bible text. ArtScroll interprets the Bible using only rabbinical commentaries that reflect its view. People who dislike movies about biblical events and cringe when the plot and its details are so radically different than what is in scripture, may do the same here. But, like the films, if one has an open mind and if one keeps in mind that what is said is not biblical, one may find the interpretations interesting.

In the introduction to this volume, ArtScroll states that its "aim was a specifically traditional commentary (meaning, one that reflects the ArtScroll ideology) reflecting the Megillah (meaning, the book of Esther), as understood by Chazal (general meaning, our sages, may their memory be a blessing - but meaning here, those sages who say what we want to hear). No non-Jewish sources have even been consulted, much less quoted (meaning, not only do we not use them, but do not even look at them). I consider it offensive that the Torah should need authentication from secular or so-called 'scientific' sources."

The issue, of course, is not one of "authentication," as ArtScroll states, but "interpretation." The issue is also a refusal to agree with the greatest mind of Judaism, Maimonides, who wrote: "The truth is the truth no matter what its source." Contrary to ArtScroll, Maimonides even used the ideas of the famed pagan

philosopher Aristotle when he interpreted the Bible and taught philosophy. The issue is what does the Bible say, not what we want it to say.

Strongly recommended

By Leib Gershon Mitchell

Of the book:

1. 38 pages preface
2. 96 pages text (48 English; 48 Hebrew)
3. 10 pages of the service that should accompany the reading.

The whole thing can be read through in about an hour (and I did just that while the reading of the megillah was going on), and the commentary is interesting.

There are a lot of things that can be learned from this book that are applicable to modern situations (even just on a first pass, I picked up three things):

1. The power of Miss Puss. (Remember that the king was convinced to take the actions that he did after being turned out by his young and beautiful wife.)
2. The Jew as viceroy (this started way back with Joseph and has continued into present times).
3. The Jew as not being of the government/local society, but being able to use it to his own ends.

There is an index and the sources are cited in an easy to follow way such that you can dig deeper into them if you want

Verdict: Highly recommended
