The existence of the on the internet book or soft documents of the **The Nix By Nathan Hill** will certainly alleviate individuals to obtain guide. It will certainly also save even more time to only search the title or writer or publisher to get till your book The Nix By Nathan Hill is exposed. After that, you can visit the link download to go to that is given by this site. So, this will be an excellent time to start enjoying this publication The Nix By Nathan Hill to review. Consistently good time with publication The Nix By Nathan Hill, constantly good time with money to spend!

Amazon.com Review

An Amazon Best Book of September 2016: The Nix is a surprising novel that you didn't know you were waiting for until you start reading. At its center is Samuel Andresen-Anderson, a failed writer and increasingly apathetic college professor, who gets a second chance at literary fame from the most unlikely source—the mother who abandoned him as a child. The American public is up in arms about a rather absurd crime that Samuel's mother committed against an obnoxious politician. While Sam is shocked and surprised to learn the whereabouts of his estranged mother, he also realizes it's the chance of a lifetime to tap into the zeitgeist with some choice tidbits about her, if he can write it before media A.D.D. sets in. But in order to write the book that will revive him, Samuel is forced to dig into her life, and he discovers a completely different version of the woman he thought he knew; it turns out he's not the only one who's life is carved out of traumatic events. Nathan Hill is incredibly perceptive, as in this, which I can't stop thinking about: "The things we love the most are the most disfiguring. Such is our greed for them." Hill has created a brilliant junction of mother-son saga and comic satire about our self-righteous and obsessive society. This is a big, clever novel that wraps itself around you until you never want to leave. --Seira Wilson, The Amazon Book Review

Review

"If any novel defied an elevator pitch in 2016, it was *The Nix*. Acid critique of millennial entitlement, videogame addiction, and clueless academia; tender meditation on childhood friendship, first loves, and maternal abandonment; handy tutorial on '60s radicalism and Norwegian ghost mythology: Nathan Hill's magnificently overstuffed debut contains multitudes, and then some. . . . the story surges, ricocheting from sleepy '80s suburbia and the 1968 DNC riots to WWII-era Norway, post-9/11 Iraq, and beyond. It's not just that Hill is a brilliantly surreal social satirist in the gonzo mode of Don DeLillo or Thomas Pynchon (a male news anchor's face is 'smooth as cake fondant'; one doomed union is 'like a spoon married to a garbage disposal'), it's that he does it all with so much wit and style and heart." —Leah Greenblatt, *Entertainment Weekly* (Best Book of 2016)

"A fantastic novel about love, betrayal, politics and pop culture—as good as the best Michael Chabon or Jonathan Franzen." —People

"It broke my heart, this book. Time after time. It made me laugh just as often. I loved it on the first page as powerfully as I did on the last." —Jason Sheehan, NPR.org

“Funny, endlessly inventive. . . . [a] wild tragicomic tangle of [Hill’s] imagination.” —Entertainment Weekly (A-)

“Hill has so much talent to burn that he can pull off just about any style, imagine himself into any person and convincingly portray any place or time. *The Nix* is hugely entertaining and unfailingly smart, and the author seems incapable of writing a pedestrian sentence or spinning a boring story. . . . [A] supersize and audacious novel of American misadventure.” —Teddy Wayne, *The New York Times Book Review*

“Irresistible. . . . A major new comic novelist Hill is a sharp social observer, hyper-alert to the absurdities of modern life. . . . his enormous book arrives as one of the stars of the fall season. . . . readers will find this novel. And they’ll be dazzled.” —Ron Charles, *The Washington Post*

“Hill is an uncommonly profound observer, illuminating much about the relationships between parents and children. . . . Nathan Hill is an important new writer, able to variously make readers laugh out loud while providing a melancholy, resonant tale.” —Eliot Schrefer, *USA Today* (4/4 Stars)

"[A] great sprawling feast of a first novel. . . . Hill writes with an astonishingly sure hand for a young author. . . . let's just call him the real thing." —Dan Cryer, *Newsday*

About the Author

NATHAN HILL’s short fiction has appeared in many literary journals, including *The Iowa Review*, *AGNI*, *The Gettysburg Review*, and *Fiction*, which awarded him its annual Fiction Prize. A native Iowan, he lives with his wife in Naples, Florida.

A Washington Post 2016 Notable Book
A Slate Top Ten Book

“Nathan Hill is a maestro.” —John Irving

It's 2011, and Samuel Andresen-Anderson hasn't seen his mother, Faye, in decades—not since she abandoned the family when he was a boy. Now she's reappeared, having committed an absurd crime that electrifies the nightly news and inflames a politically divided country. The media paints Faye as a radical hippie with a sordid past, but as far as Samuel knows, his mother was an ordinary girl who married her high-school sweetheart. Which version of his mother is true? Two facts are certain: she's facing some serious charges, and she needs Samuel's help.

To save her, Samuel will have to embark on his own journey, uncovering long-buried secrets about the woman he thought he knew, secrets that stretch across generations and have their origin all the way back in Norway, home of the mysterious Nix. As he does so, Samuel will confront not only Faye's losses but also his own lost love, and will relearn everything he thought he knew about his mother, and himself.

This is something special. A great big read from a great big talent with a great big heart.

By RobynJC

Samuel is an underachieving assistant professor of literature at a nothing college outside Chicago who dislikes his students, spends way too much time playing an online fantasy game, got a huge advance for a novel he never wrote, and is pining for the girl he loved when he was eleven. His life is stalled out big time, but he is dragged out of stasis when his estranged mother, who abandoned him when he was eleven and has never been heard from since, makes national headlines for throwing rocks at a Presidential candidate - she is the Packer Attacker! Through a ridiculous series of events, Samuel is tasked with writing his mother's life story, and is forced to investigate her life since leaving him. The Nix is the story of how mother and son came to where they are -- and where they might go from here.

But really, this basic plot description does not begin to do this book justice. Nathan Hill has a dazzling imagination, and the feats of writing that he performs are an absolute joy to experience. He writes one chapter from the POV of a gaming addict, an internal stream of consciousness in which the character makes elaborate plans to quit gaming, but talks himself out of it. This is ten pages, one paragraph, and it is absolutely mesmerizing -- funny and insightful and sad, about the stories we tell ourselves. Another chapter is just a conversation between Samuel and the lawyer who is representing his mother, nothing but dialogue, and it is hysterical. Another chapter is a Choose Your Own Adventure mini-book explaining how Samuel's relationship with a violin prodigy came unraveled, because Samuel does not choose wisely. Another chapter is...you get the picture.

The story of Samuel and his mother is a jumping-off point for Mr. Hill to write about a huge range of things: let's see, he covers second-rate higher education, gaming addicts, the ravenous news media, music prodigies, child abuse, child abandonment, thwarted love, the 1960s counter-cultural revolution, Allan Ginsberg, Walter Cronkite -- at one point, no joke, there is a sequence inside the head of Walter Cronkite where he imagines himself as a bird flying above the Chicago riots... and I still haven't skimmed the surface of all the things this book is really about.

And if I have a criticism, that's what it is. This book is about so many things, it is so wildly ambitious and imagined, that at times it seems to get a bit out of control. Around the time Walter Cronkite was imagining himself as a bird, I was thinking, hmm, a little editing might have helped some. Reading *The Nix* feels a bit like watching a wildly talented thoroughbred run -- and win -- its first race. You see the immense beauty of the animal, the strength, the speed, it easily outpaces the rest of the field, you know you're at the beginning of something special. Yes, the horse is a little wild, a little undisciplined, maybe veers around the track a bit, maybe tires at the end, but my gosh. You want to turn to everyone around you and say "Did you SEE that?"

And one last thing. So many books these days are being written with a lot of technique, but they're lacking in heart. What makes this book special, to me, is that Mr. Hill's heart is as generous as his talent. He writes fantastic sentences, he has astonishing craft, but beyond that, he has true empathy, compassion and hope. He sees the insanity of the world, but he also has hope for our future. And I have tremendous hope for his.

There are a lot of funny parts that were fun to read

By jenenifer

I wasn't sure about this book at first but warmed up to it about a third of the way through. There are a lot of funny parts that were fun to read. By about the 3/4 mark, though, it was overkill. It was an okay read but not a book I would recommend to others.

Fascinating but sad book!!! Highly recommended!!!!

By Note

Best line in the book is "...if you see yourself as a puzzle, than you will be constantly delighted, because eventually, if you dig deep enough into anybody, if you really look under the hood of somebody's life, you will find something familiar.". This book was listed as humorous, but it was sad to me. First, I thought this was an excellent novel and highly recommend it. Yes, it is somewhat political but the Repulicans are stereotyped card board cut outs, the liberal are broken, sad, weird, disfunctional people. So, neither side can count this book as a rally cry. The characters are fascinating. The novel includes child abuse, loneliness, computer addiction, tales from the "old world", a mother who deserted her son, a lost and damaged policeman, a promoter, a cruel judge, a lost father, a chemical factory, 1968 rioters, and much much more!!! As a person of "advanced age" I lived through this era - it really hit a nerve and brought back many memories. Many of the reviewers stated this is a "funny" novel but it is sad in several ways: time lost with a son, a father who forever remembers a lost daughter, a policeman obsessed with the love of his life, a small child abused, a soldier conflicted, a boy frightened about serving in Vietnam, politicians who use events with no honor (Democrats and Republicans), being lost in playing video games to escape real life, a teacher who does not improve his skills, a college student who cheats, lies, and has no moral compass, and more. Frankly, I did not laugh one time, but this book was fascinating. The book deserves an A+++++++
